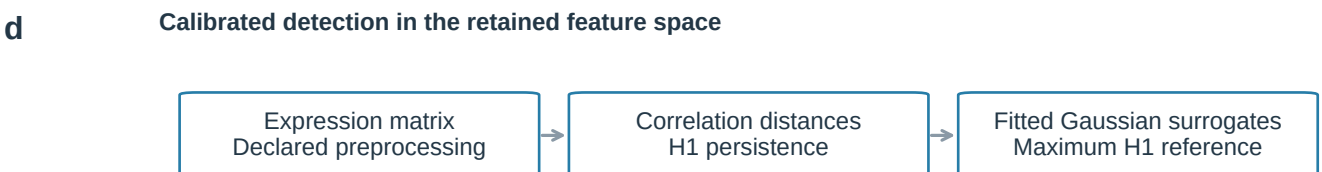
a Diffuse state space
Illustrative coordinates
b Recurrent state space
Illustrative coordinates
c Open trajectory
Illustrative coordinates



d
Calibrated detection in the retained feature space
Expression matrix
Declared preprocessing
Correlation distances
H1 persistence
Fitted Gaussian surrogates
Maximum H1 reference

e
Stability and biological interpretation
Refit reference after removal
Agreement threshold 0.75
Stable positive / zero count
or unresolved (withheld)
Report candidate count
Axis and phase diagnostics
Reported separately
